Multiplying and dividing fractions word problems worksheets 7th grade

This Word Problems Worksheet will produce problems that focus on division with fractions. You have the option to select the range of denominators, as well as the types of fractions displayed. Click here for More Word Problems Worksheets Featured here is a vast collection of fraction word problems, which require learners to simplify fractions, add like and unlike fractions, subtract like and unlike fractions, multiply and divide fractions. The fraction word problems include proper fraction, improper fraction, and mixed numbers. Solve each word problem and scroll down each printable worksheet to verify your solutions using the answer key provided. Thumb through some of these word problem worksheets for free! Represent and Simplify the Fractions: Type 1 Presented here are the fraction pdf worksheets based on real-life scenarios. Read the basic fraction word problems, write the correct fraction and reduce your answer to the simplest form. Adding Fractions Word Problems Worksheets Conjure up a picture of how adding fractions plays a significant role in our day-to-day lives with the help of the real-life scenarios and circumstances presented as word problems here. (15 Worksheets) Multiplying Fractions Word Problems Worksheets This set of printables is for the ardently active children! Explore the application of fraction multiplication and mixed-number multiplication in the real world with this exhilarating practice set. (15 Worksheets) Fraction Division Word Problems Worksheets Gift children a broad view of the real-life application of dividing fractions! Let them divide fractions by whole numbers, divide 2 fractions, divide mixed numbers, and solve the word problems here. (15 Worksheets) Home Parents District Schools Calendar Online Calendar Sports Schedules Calendar Publications Student Services Instruction " Back-to-School FAQ Classroom Pages Common Core Learning Standards Athletics Board of Education Site Content Classroom Pages " Bement, Stacy Bennett, Marice Bitter, Kathaleen Blue, Suzanne Burger Outdoor Club Burke, Michael Butler, Keith Carges, Holly Coe, Kevin Curtin, Michelle Davis, Will DelVecchio, Jon DeSimone, Dan DiGiulio, Ami Donlon, JoLyn Falci, Jakob Flaitz, Kelly Flisnik, Julie Forken, Doug Gibbs, Leda Goodberlet, Aria Guthrie, Kristen Hohman, Michael Hydock, Jeff Lattimer, Linda Loftus, Elizabeth Markham, Jennifer Maysick, Sharon McAllister, Heather McCall, Michele McDonald, Christopher McNamara, Jodi Meyer, Charles Miron, Terri Ohl, Tom Petschke, Gina Richards, Amanda Rolland, Kathryn Snyder, Elizabeth Snyder, John Spanagel, Betsy Spanagel, Ivan Stockmaster, Karyn Sullivan, Julie Swaisgood, Kim Swan, Larry Testa, Michelle Traugott, Gretchen White, Christopher Yacoub, Amy Coach Carpenter DiMicheli, Amanda Guarino, Emily Jones, Geoffrey Jones-Bingham, Colleen Laughlin, Crystal Magiera, Caitlin Matteson, Natalie Mir-Lane's Site Rebecca Oliver's Site Reed, Laura Schwab, Diane Stacy House's Site Williams, Lyndsey Calendar Dividing Fractions and Whole Numbers Word Problems Prepare the child through and through so they divide fractions and whole numbers with word problems. Let them take the reciprocal of the divisor and multiply it with the dividend, and they're good to go! Dividing Mixed Numbers Word Problems Give 5th grade and 6th grade students a good round of practice to hone their skills in fraction division. Convert mixed numbers into improper fractions, and proceed to divide them as usual. Dividing Mixed Numbers and Fractions Word Problems The road to mastery in word problems on dividing mixed numbers and fractions is made smooth with our printable worksheets. Read the problems, identify the dividends and divisors, and find the answers. Themed Fraction Division Word Problems If grade 6 and grade 7 learners are bent on proving they're real gifted at tackling fraction division, nothing can stop them! With our themed word problems pdfs, problem-solving is at its most exciting. These grade 5 worksheets begin with multiplying and dividing fractions by whole numbers and continue through mixed number operations. Explore all of our fractions worksheets, from dividing shapes into "equal parts" to multiplying and dividing improper fractions and mixed numbers. Trawl through a host of free printable dividing fractions word problems worksheets and add life to the division of fractions with fascinating everyday scenarios. Equal parts exciting and challenging, our practice word problems pdfs with included answer keys ensure children's computation skills will witness massive transformation. With diverse exercises like solving division word problems involving fractions, mixed number, and whole numbers and themed scenarios, students will be spoiled for choice! Our pdf fraction division word problem worksheets are suitable for grade 5, grade 6, and grade 7. CCSS: 5.NF.6.NS Example 1: If it takes 3/4 yards of fabric to make a dress, how many yards will it take to make 8 dresses? Analysis: To solve this problem, we will convert the whole number into an improper fraction. Then we will multiply the two fractions. Solution: Answer: It will take 6 and 2/3 yards of fabric to make 8 dresses. Example 2: Renee had a box of cupcakes, of which she gave 1/2 to her friend Juan. Juan gave 3/4 of his share to his friend Elena. What fractional part of the original box of cupcakes did Elena get? Analysis: To solve this problem, we will multiply these two fractions. Solution: Answer: Elena got 3/8 of the original box of cupcakes. Example 3: Nina's math classroom is 6 and 4/5 meters long and 1 and 3/8 meters wide. What is the area of the classroom? Analysis: To solve this problem, we will multiply these mixed numbers. But first we must convert each mixed number to an improper fraction. Solution: Answer: The area of the classroom is 9 and 7/20 square meters. Example 4: A chocolate bar is 3/4 of an inch long. If it is divided into pieces that are 3/8 of an inch long, then how many pieces is that? Analysis: To solve this problem, we will divide the first fraction by the second. Solution: Answer: 2 pieces Example 5: An electrician has a piece of wire that is 4 and 3/8 centimeters long. She divides the wire into pieces that are 1 and 2/3 centimeters long. How many pieces does she have? Analysis: To solve this problem, we will divide the first mixed number by the second. Solution: Answer: The electrician has 2 and 5/8 pieces of wire. Example 6: A warehouse has 1 and 3/10 meters of tape. If they divide the tape onto pieces that are 5/8 meters long, then how many pieces will they have? Analysis: To solve this problem, we will divide the first mixed number by the second. First, we will convert each mixed number into an improper fraction. Solution: Answer: The warehouse will have 2 and 2/25 pieces of tape. Summary: In this lesson we learned how to solve word problems involving multiplication and division of fractions and mixed numbers. Exercises Directions: Subtract the mixed numbers in each exercise below. Be sure to simplify your result, if necessary. Click once in an ANSWER BOX and type in your answer; then click ENTER. After you click ENTER, a message will appear in the RESULTS BOX to indicate whether your answer is correct or incorrect. To start over, click CLEAR. Note: To write the mixed number four and two-thirds, enter 4, a space, and then 2/3 into the form. 1. One batch of cookies contains 1 and 3/4 cups of melted chocolate. How many cups of melted chocolate are needed to make 8 batches of cookies? 2. Todd drank 5/8 of a 24-ounce can of juice. Lila drank 1/3 as much juice as Todd did. How many ounces did Lila drink? 3. A rectangular area rug has a length of 3 and 2/3 feet and a width of 2 and 3/4 feet. What is the area of the rug? 4. Janet has 5 and 3/4 centimeters of licorice. She divides the licorice into pieces that are 1 and 7/8 centimeters long. How many pieces of licorice will she have? 5. A piece of wood is 15 feet long. How many 3/4-foot sections can be cut from it? Report this resource to let us know if it violates our terms and conditions. Our customer service team will review your report and will be in touch. This activity allows students to utilize problem solving skills while reading a recipe. They will multiply whole numbers, fractions, and decimals, as well as determine capacity measurements. Please visit my store to see my Common Core Aligned math units on place value, multiplication, division, and fractions! They all include detailed lessons for small groups and whole group, games, activity sheets, and math literature, like this one! I teach 6th grade. However, like many of you out there, some of my students have gaps in their learning and are below standards. Because of this, I have incorporated a cyclical learning approach, where each educational concept is first introduced an at a very basic level, then reinforced, then revisited again and again until students reach grade level proficiency. This samplerDaily 6-Grid Math Review Packets for 6th gradeby These daily 6-grid math review sheets can be utilized as a review tool at the beginning of your lesson to ensure you are meeting common core math standards and Washington State Standards, as well as provides you with an assessment tool each week to track student progress with the standards. Each week is meant to review the previous week's teaching and units are based on 6th grade curriculum, however they can be implemented as review for 7th and challenge for 5th grade students. Skills coveredThis Product Includes:Sample slideseach slide has a unique math and logic puzzle&key vocabulary and sentence frames to use in discussionsThere is no "wrong" answer to these logic math puzzles, which brings all learners to the conclusion. Use these slides as warm ups, morning meetings, or brain breaks during tutoring. The purpose is to get students talking, owning their math logical thinking, and doing difficult work together. Click here to see the full product. There are 100 slides availSubjects:Whether it be to inclement weather or unforeseen circumstances, this choice board is a great way to get your kiddos to continue thinking about math while spending time at home with their families. This resource includes a choice board of math problems that prompt students to use objects and people around their home to solve each problem. This resource integrates Flipgrid, so that you can feel more connected to your students as they create video responses of their solutions to each problem. IncluAdding Fractions - FREEBIEby Cynnnsational School StuffTHIS IS ONLY A FREEBIE, which means this is not the full kit!
